

PLEDGE FOR OUR COMMITMENT TO SUSTAINABLE TOURISM

Today, by touching the Stone from the very source of the River Ganges that represents Life & Mother Earth, I solemnly undertake a pledge to be a responsible citizen and abide by sustainable practices both in my daily life and workplace.

Recognizing that every earth resource is finite and fragile, I commit to fully implement sustainable tourism practices, consistent with the best environment and heritage protection standards.

Such that my present tourism resource requirements optimize both local community benefit and future sustainable uses. I also reiterate our commitment to conduct our business in an ethical manner that benefits the culture and ethos of our rich and ancient civilization.
